## EcovaPure ${ }^{\text {TM }}$ PL-50

## PRODUCT SPECIFICATION

## Description

EcovaPure ${ }^{\text {TM }}$ PL-50 is a premium egg yolk phospholipid concentrate, containing a minimum of 50\% phospholipids. Our ahead-of-the-curve EcovaPure ${ }^{T M}$ processing technology produces clean, high-quality egg yolk products efficiently and at lower costs than standard methods. Ecovatec's processing meets consumer preferences for natural egg proteins and lipids that aren't contaminated and denatured by harsh solvents. Ecovatec's phospholipids are extracted from 100\% pasteurized egg yolk from Canadian egg producers, located near quality grain sources.

## Applications

EcovaPure ${ }^{T M}$ PL-50 has a broad range of useful applications. It is used as a food ingredient to not only boost nutritional value but to serve as an emulsifier and binder. It is used in many baked goods, ice cream, and chocolate. EcovaPure ${ }^{\text {TM }}$ PL-50 also has applications for nutraceuticals, dietary supplements, as well as cosmetic products.
